

# One World for all

Association for Children and Youth with Special Needs "One World" (ACYSN) was created on 10th of July 2002. The Association is largely made up of parents who have children with special needs. They are the parents who have the best understanding of the major issues and challenges for their children each day, which include social inclusion and a normal life in the community. From April 2004 we are a public benefit organization. We are entitled to receive 1% tax from individuals which allows us to make real our plans

**The basic association rules and goals are:**

- Promoting equal and unlimited rights and the rights of children and young people with disabilities, referring to the new Polish democratic governance

- Improvement and the right supervision of existing rehabilitation centers and open new rehabilitation centers which will help children and youth with disabilities to obtain the maximum personal autonomy, the ability to function in society and to achieve professional skills for the future.

Another important objective of the association is to ensure a smooth and effective integration into the world thanks to the recent studies, such as music therapy in the treatment, etc. for children and young people with disabilities.

Our Association is fairly new, but now is able to achieve its goals.

Our far-reaching plan and the biggest dream is to create a place where people with disabilities will be able to work.

At this moment we are trying to get a piece of land, willingly with old building.

We want to renovate this old building and adapt it for the needs of people with disabilities or build the center from the beginning.

People with disabilities could work in ecological farm.

They could do ecological floriculture and raise the animals.

We're still looking for such a possibility to adapt piece of land and adjust it to the needs of people with disabilities.

...Mom, I have wings

Mom, I have wings,  
Soft and strong  
With power of hope  
And faith  
That I can do everything.

Gain the mountains,  
Overcome limits.  
Fly away from slavery  
Of differences.

Mom, I have wings,  
They will take us  
To the Island Of Happiness  
Just when You'll believe in me.  
Mom...
